In – Class Assignment

01

Instruction:

Use Java Swing (JFrame), AWT and Graphics2D to draw the following patterns. Use only rectangles, ovals, circles, and lines. Set suitable colours and line thicknesses to match each pattern.

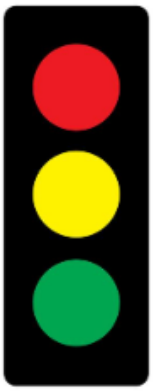

1)

**Task: Draw a house**

- Draw the house body using a rectangle.
- Draw the roof using three lines.
- Draw a door and two windows using rectangles.
- Use different colours for each part.

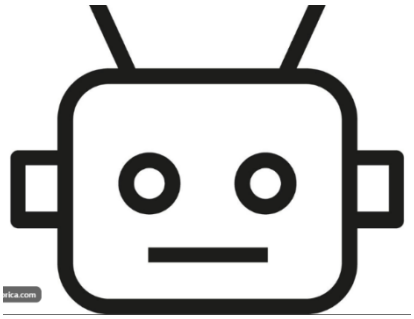

2)

**Task: Traffic light**

- Draw one vertical rectangle.
- Draw three circles inside it.
- Colour the circles red, yellow, and green.

3)

**Task: Robot face**

- Draw one rectangle for the head two small rectangles for ears.
- Draw two circles for the eyes.
- Draw one horizontal line for the mouth.
- Draw two lines on top for the antennas.
